

5M/2835 high efficiency Led strips/

320pcs led/meter/DC24V/IP20/24mm

- High luminous efficiency and Ideal light source for LED Linear Light
- 2 rows with 24mm FPC can match big size Aluminum profile
- Longer life span with 5 years warranty
- Lower watts at same brightness/ energy saving
- Led with one BIN system, color temperature consistent
- Leds: 99.99% golden wire and copper support, super bright leds, stable and reliable
- RA80, RA90 for choice
- IP grade: IP20
- CE/ ROHS certification

Application:

Widely used in hotels、shopping malls、furniture、cabinets、shelf, as decoration lighting, direct lighting or indirect lighting

Installation:

3M Adhesive

Warranty:

5 years

Optical&Electrial:

Product Model	Color	CCT (K)	Ra	Beam angle (°)	Lumen (lm/m)	Efficiency (lm/W)	Voltage (V DC)	Current (mA/m)	Power (W/m)
SW-F2835W160-WF0	WW	2700	≥80/90	120	5395/4795	162/144	24	1385	33.3
SW-F2835W160-WF0	WW	3000	≥80/90	120	5628/4962	169/149	24	1385	33.3
SW-F2835N160-WF0	NW	4000	≥80/90	120	5994/5328	180/160	24	1385	33.3
SW-F2835C160-WF0	CW	6000	≥80/90	120	5927/5261	178/158	24	1385	33.3

5M/2835 high efficiency Led strips/

320pcs led/meter/DC24V/IP20/24mm

Other features:

Product Model	IP grade	Working environment (°C)	Storage environment (°C)	Length (m)	Max connection Length (m)	LED Qty (pcs/m)	N.W (g/Roll)
SW-F2835N160-WF0	IP20	-25~+45	-30~+80	5	2.5	320	123

Notes:

- Testing environment temperature: 25±2°C ;
- Above data confirmed on the basis of 1M sample, 4000k, RA80, IP20.
- Different IP grade with different Data.
- Mark"—"means no testing requirement.

Package details :

Model	carton	Qty/Roll(m)	Qty/Carton(m)	Total Qty(m)	G.W(Kg)	size(mm)
SW-F2835X160-WF0	inner box	5	50	50	1.46	L303*230*260
	outer box	5	200	200	6.46	L620*W472*H280

Package:

320pcs led/meter/DC24V/IP20/24mm

The diagram illustrates two wiring configurations for LED strips:

- Top Configuration:** An LED driver is connected to a power source (+/-). The LED strip (2500mm long, 25mm wide) is connected directly to the driver.
- Bottom Configuration:** An LED driver is connected to a power source (+/-). The LED strip (2500mm long, 25mm wide) is connected to the driver through a dimmer switch.

Legend:

- "+": red wire
- "-": black wire

Product and needed tools:

Product
Led strip

Needed tools
scissor

5M/2835 high efficiency Led strips/

320pcs led/meter/DC24V/IP20/24mm

Installation steps:

Clean the installation surface

Measure the length you need to install, cut at the nearest scissor mark line.

For the left led strip, weld at the next scissor mark to connect with other connection wire.

Do not pull the whole led strip from the back release paper by one time. No press on the leds.

Connect the led strip wire to the driver output side (Positive to positive, negative to negative.)
Connect the driver input side to power-supply.

Switch on and enjoy.

No bending
at the point of leds

No contortion
of the led strip.

No bending
with Diameter < 6cm

320pcs led/meter/DC24V/IP20/24mm

Usual problem with solutions :

Problem	Possible reasons	solution
All fail	No power supply	Give power supply
	Automatic switch-off because of the open circuit and short circuit	Solve the problem, switch on again.
	Wrong connection (positive connect with negative)	Check and get right connection.
Part fail	Part power-supply fail	Check and make sure the power supply well.
	Part circuit error	
	Part wrong connection(positive connect negative)	Check and get right connection.
Inconsistent brightness or insuffiscent brightness	overload of the driver	Use higher-power driver
	Too big power consumption of the switch, or unbalanced power consumption from different strip series.	Keep the strip working voltage is more or less 5% than the Rated voltage. 1.shorten the connection cable length, or change to thicker cable. 2.Make sure the strip quantity is less than the allowed connection quantity.Keep the led strip quantity of each series similar)
	Too many Led strips connection	Adjust the led strip quantity, make sure sufficient power supply.
LED flash	Poor welding connection of wires	Check,find and solve it.
	switch problem	Change to right switch

Statements :

For safety, the product wire should be moved and replaced by the manufacturer, agent or other authorized person.

Please refer to the product manual before installation.

Above-refered data is from our standard product. Please subject to your actual product data if there is difference.

Above-refered schematic diagrams are from our standard product. Please subject to your actual product data if there is difference.

In actual use,we suggest 80% consumption of the driver. Keep 20% as power to start the led strip.

For safety, no touch the AC terminal.

Any acidic or alkaline substance is forbidden.

No notice for updated of this product.

Starwire reserve the final interpretation of the specification.
